[REDACTED] reports:

Confidential reliable source reported that:

From inside SNCC Headquarters word was received that Carmichael called this morning from Atlanta, Georgia to advise that there were to be no demonstrations or other activities by SNCC until they heard further from him.

Confidential source talked with a member of SNCC at Headquarters thought to be a foreigner, possibly Nigerian.

As of 1545 hrs. today, SNCC Headquarters was padlocked.

From outside SNCC Headquarters, the word was that there were going to be some demonstrations, told that they would demonstrate tomorrow, using the excuse of protest on the anniversary of the bombing of Naga Saki and the battle of Iwo Gima. These people were obviously Black Muslims. (according to source).
